3	Authorization of request by PAO

Shifting (Migration) from NPS to UPS (A2) - Verification by DDO & Authorisation by PAO

1. Background:

The Unified Pension Scheme (UPS) has been introduced as an option under the National Pension System (NPS) by the Central Government (CG) for the Central Government employees covered under NPS so that they may receive an assured payout after their retirement. It is a 'fund-based' payout system which relies on the regular and timely accumulation and investment of applicable contributions (from both the employee and the employer (the Central Government)) for grant of monthly payout to the retiree.

The Unified Pension Scheme shall be made operational from April 1st, 2025.

An existing Central Government employee in service as on April 1st, 2025, who is covered under NPS can opt for UPS by shifting their NPS account under UPS.

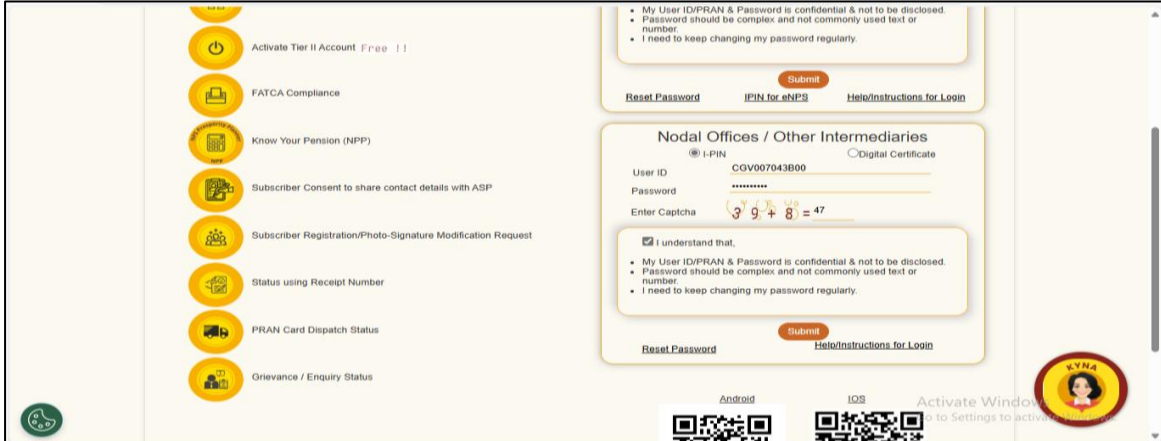

The shifting process can be initiated by the subscriber online through e-NPS portal wherein the said request will be verified by DDO/PAO and needs to be authorized by PAO. Alternatively, the subscriber can submit A2 form to the nodal office (PAO/DDO) for shifting from NPS to UPS. Based on the form received, Nodal Office will initiate the request and process the same.

This document explains the Standard Operating Procedure (SoP) for processing shifting (migration) requests initiated by the subscriber online and verified by DDO and authorised by PAO.

Shifting (Migration) from NPS to UPS (A2) - Verification by DDO & Authorisation by PAO

2. Verification of requests by DDO

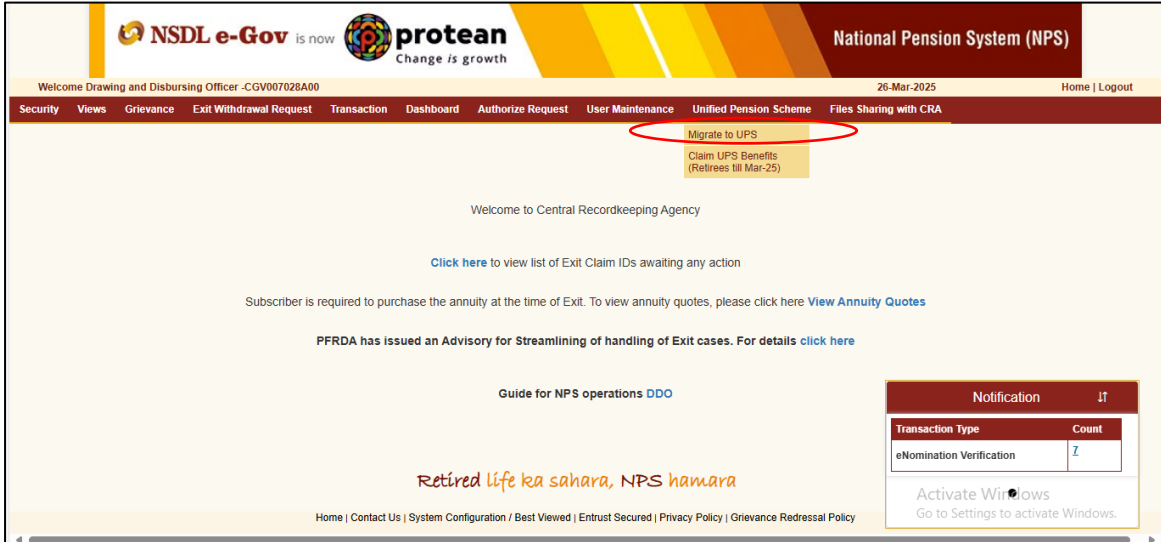

- A. DDO user (henceforth known as verifier) is required to login into the CRA system (<https://cra.nps-proteantech.in/CRA>) using the User ID and password.

The screenshot shows the CRA login interface. On the left is a sidebar with icons for various services like 'Activate Tier II Account', 'FATCA Compliance', 'Know Your Pension (NPP)', etc. The main area contains a login form for 'Nodal Offices / Other Intermediaries'. It includes fields for 'User ID' (with a dropdown for I-PIN or Digital Certificate), 'Password', and a 'Captcha' (3+9+4=47). There are 'Reset Password' and 'Submit' buttons. A 'Help/Instructions for Login' link is also present. At the bottom, there are QR codes for Android and iOS apps, and a note about activating Windows.

Figure 1

- B. The verifier needs to select “Unified Pension Scheme” menu and click on option “migration to UPS.”

The screenshot shows the NPS portal interface. The top header includes the NSDL e-Gov logo, the protean logo, and the text 'National Pension System (NPS)'. Below the header is a navigation bar with various menu items: Security, Views, Grievance, Exit Withdrawal Request, Transaction, Dashboard, Authorize Request, User Maintenance, Unified Pension Scheme, and Files Sharing with CRA. The 'Unified Pension Scheme' menu is highlighted with a red circle, and its sub-menu 'Migrate to UPS' is also highlighted. Below the navigation bar, the main content area displays a welcome message to the Central Recordkeeping Agency, a link to view Exit Claim IDs, a link to view annuity quotes, and a link to the PFRDA advisory. A notification box on the right shows a table with 'Transaction Type' and 'Count'.

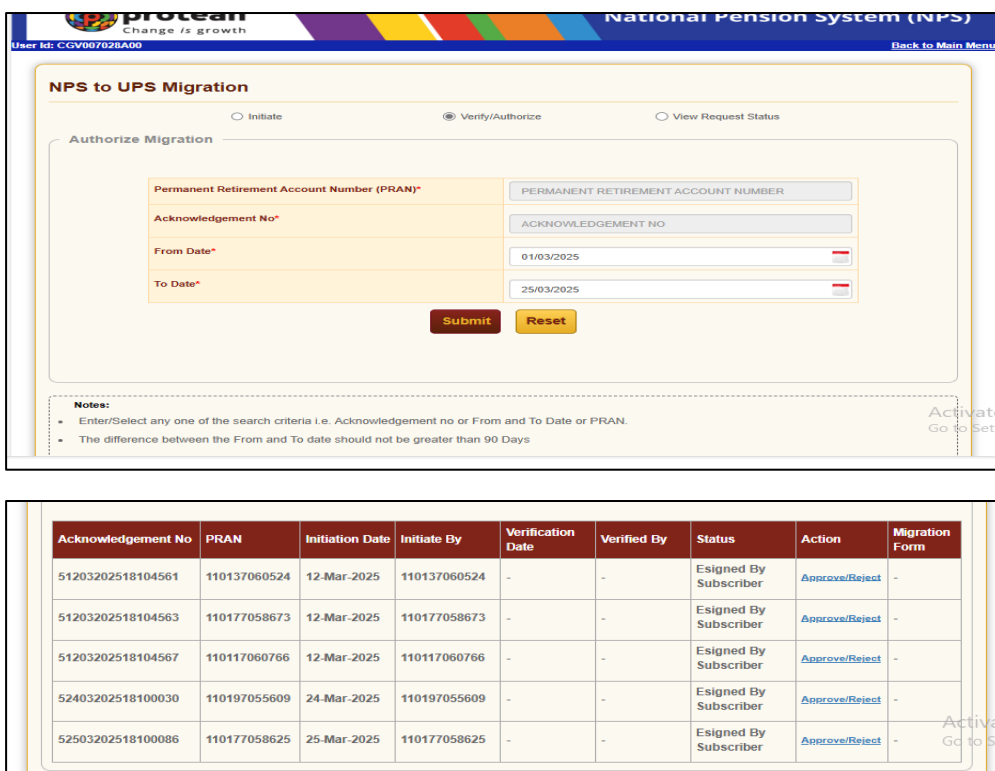

Transaction Type	Count
eNomination Verification	1

Figure 2

Shifting (Migration) from NPS to UPS (A2) - Verification by DDO & Authorisation by PAO

- C. The verifier needs to select “Verify/Authorize” tab and provide date range i.e. “From Date” and “To Date” and click on submit. On submission, search records will be displayed on the screen.

Alternatively, PRAN/Acknowledgement no. can be used to view specific request.

Once the verifier clicks on “Approve/Reject” link, all the details of the request will be displayed on the screen. (View Figure 4)

Shifting (Migration) from NPS to UPS (A2) - Verification by DDO & Authorisation by PAO

- D. The verifier needs to verify the employment details of the employee as per service records. For reasons such as employee not eligible for shifting to UPS or employee has now resigned etc. said request can be rejected. In this process, the verifier needs to select the rejection category as “employment details” and provides remarks and click on reject button.
